It was mainly, as we said, on account of this great outrage on the ballot box of the metropolis of the country that Congress passed the act providing for the appointment by the United (two for each voting precinct) in cities and towns of over 20,000 inhabitants whenerer representatives in Congress are voted for. It was in the general election of 1872 that this igw was first applied to prevent and reduce the founds in New York city, with the result already noted.

The law provides for the appointment of two citizens at each election precinct, "the shall be of different political parties, just as at our local elections we provide political parties, and thus the rights of both parties were protected under the law There is no reason why such a law should be repealed except the very obvious one that the Democracy have made up their minds that they will carry New York in 180 a: they did in 1868, and that they will confronts the country to-day in the coming together of the 16th Congress. The following resolution was adopted: Resolved, That it is the sense of this caucus that no legislation shall be entered on during this session of Congress other than that for which the session was specially called.

Only one vote was cast against the adoption of this resolution. During the pre-liminary interchange of views a very gen-eral desire was expressed that the session should be of short duration. BERLIN IN PETTY STATE OF SIEGE. BERLIN, March 17.-The Reichstag to

day discussed the report, explanatory of the action of the government in insitu-tius petty state siege in Berlin. Herr Liebknecht, Socialist, strongly cen-sured the measure, which he pronounced wholly unjustified. He declared that his party was the party of reform and not revolution. He defended the course of the Socialist deputies in not rising from their seats when cheers were given for the Empares. Where are the Greenbackers?

The President of the Reichstag, amid cheers, remarked that his conduct offended the moral sense of the Chauber.

Herr Liebknecht continued: "If a Republic is established in Germany—"

He was anable to finish the sentence in consequence of the uproor which the words provoked. The President threatened to deprive him of his right of speech, Count Van Eulenburg explained that the government's reason for proclaiming auch state of siege was that Berlin was in great danger because it was the home of socialist agitation, referring to what he termed assassination and murder. The epidenic, he said, investigation showed, that the instruments of crime were prepared in Berlin and East Prusia. The Reichstag took formal cognizance of the report concerning the state of siege.

rendered in the United States District Court here to-day, is the case of the American Middling Purifier Co. vs. John branch of patent cases lately tried in St. Louis. The decision by Judge Dillon is that the patent originally issued covered that the patent originally issued covered only a process for an improvement in the art of manufacturing flour, and that the claim made under the reissued patent is expanded to cover the process for purifying middlings. This not being described in the original patent; the claim is untenable, and the patent so far as it refers to middlings purified is void. The Court does not enter into the question of infringement. The party entered the kitchen, and, marching Kline before them, moved to the door opening to the room where Mrs. Truesdell, his victim, lay upon the bed of sickness, and perhaps death, to which his crime brought her. She was found sitting up in bed, supported by her husband onone side and her mother on the other, her father, Mr. Balser, and brothers standing near.

HOW HE LOOKED.

The hands tied, his hat was removed disclosing a hald head not badly shaped, black hair rather long and standing well out from the head, dark eye-brows and dark complection, black chin whiskers, a nose slightly Roman; but upon the face scarcely a sign of tear, not a tremor noticeable, he calmly awaited the fate which he knew could not be averted. There was an effort to blindfold him, but this was abandoned. Then the rope was put round his nock.

"Who is, then?" asked the hangman.
"A man named Albert Jones," replied
Kline. "We came to the Highlands together that day, and he told me he did it."
"What is the use of telling us this?" persisted the hangman. "We know you are
the man; you have confessed it, he woman

"This is no time for a confession," replied Kline; "this is not law."
"This is Kentucky law," was the reply.
"Now," continued the hangman, "I have taken you out of jall, taken you to the woman, who has identified you, given you a

THE SIGNAL WAS GIVEN.

Even then there was a moment of delay, for the driver looking up seemed to be struck with Kline's expression of countenance and the manner in which the deed was being accomplished, and, reaching up, he kindly drew down the unfortunate man's hat over his face, hiding it from view, and striking his horse a quick blow, drove out, and Kline was

LAUNCHED INTO ETERNITY. He did not fall, he me ely swung of, standing upou the seat until the rope pulled him off it, and without a jar or a possibility of breaking the neck, swung rigidly backward and forward like a pendulum. For a moment there was allence, and then the crowd, remembering K line's last words to his unfortunate victim brake, out with the crows, remembering kine's last words to his unfortunate victim, broke out with them, "Get loose if you can," "Get loose if you can," and there was a torrent of cries and shouts mingled w th the calls of order by the more thoughtful, who remembered that death is solemn under all circum-

BARDAROUS.

When the crowd gathered round, and, with jeers and scoffs, examined the body closely, holding up the only lastern to the face, and turning it slowly about, that all might see it. Tiring of this, they began amusing themselves by swinging the body to and fro, but the large proportion of the crowd became very much disgusted and left, and by two clock the crowd had dispersed, leaving the dead man swinging in the driving snow storm to await the coming of Coroner to-day. coming of Coroner to-day.

At 3 r. M. the body was still banging, the people of the neighborhood threaten-ing to shoot any one who dares to cut it

A LEAF FROM HIS FORMER RECORD.

Five weeks ago last Friday Peter Kline was freed from the the Ohio Penitentiary, having served out his term of imprisoment. He was taken to the institution by Joe Moses, and on the day mentioned Mr. Moses happened to be in Columbus on business. Kline and another ex-convict who had just been released, haild Joe and wanted him to take a drink with them. He declined the invitation, but met them shortly after on the train bound for this city. On board was a young, unsophisticated girl, bound from Baltimore to New Orleans. Kline scraped up an acquaintance with the girl, and on the arrival of the train in this city he and his convict friend attempted to get her to go with them. arrest them (he being a Deputy Sheriff) and put them in the Station-house.
